**Online Super Series (October 3<sup>rd</sup>-14<sup>th</sup>)**-ACR's next tournament series will offer over \$3.5 million in prize pools and include Six Plus Hold'em tournaments for the first time. The series culminates with a \$1,000,000 GTD MDS Main Event on October 14<sup>th</sup> at 3pm ET.

**Live Cage Satellites**-Starting January 7<sup>th</sup>, every Sunday night at 6pm ET you can now win a trip to sunny Costa Rica to play in a \$5,000 buy-in Live Cage Event. The \$55 buy-in Beast and Sit & Crush Live Cage Satellites will guarantee 3 packages valued at \$8,000 each which includes airfare, accommodations, and the buy-in to the event.

**60 Types of Cryptocurrency Now Accepted**-ACR now not only accepts Bitcoin for both deposits and withdrawals, but over 60 types of alternative cryptocurrencies as well. Players can convert their preferred type of cryptocurrency into USD to be played on the site directly from the cashier. Alternatively, they can have their winnings sent to them in any cryptocurrency that ACR carries.

**Mobile Product**-ACR just released a new mobile product that's compatible with android, iPhone, and tablets. Simply click on the MOBILE button on the americascardroom.eu homepage, or visit play.americascardroom.eu from your mobile device to play \$2 Jackpot Poker, or \$1 Punta Cana Poker Classic Jackpot Satellites. More games will be added to the mobile platform throughout the year.

**Sit & Go 2.0**-This new twist on the traditional Sit & Go debuted March 15th, only at Americas Cardroom. Sit & Go 2.0 offers more winners and bigger prize pools in every game, plus has a progressive jackpot component for life-changing payouts.

**The Big Bang Software Release-**In May 2017, Americas Cardroom released a major software upgrade introducing some new features to the online poker industry. Flying Chip promotions, a Player Observer Tool, and Double or Nothing Games are now live! New Avatars and a Tournament Ticket Manager were also included in the latest update.

**Tournament Series-**Americas Cardroom runs numerous online poker tournament series throughout each year. Their trademark ones are the Online Super Series, High Five Tournament Series and Freebuy Super Series. In 2016 Americas Cardroom successfully hosted 9 tournament series throughout the year.

**Jackpot Poker-**Americas Cardroom is part of the only US facing network to offer these exciting 3-person hyper turbos Sit & Go's where players can hit it big for a small investment. The tourneys are available in Texas Hold'em and Pot Limit Omaha formats and players can enter for \$2 (play for up to \$5,000), \$10 (play for up to \$25,000) or \$40 (play for up to \$100,000). The prize pool is randomly drawn right before the start of the tournament.

**The Beast-**This unique weekly rake race awards cash prizes and tournament tickets to cash game grinders every week. This extra incentive is over and above ACR's lucrative VIP program and is of absolutely no cost to the player. A portion of the rake is funneled to a cash leaderboard. The more hands a player plays, the higher they rank on the leaderboard and the more cash they make at the end of the race. To date, The Beast has awarded over \$6.7 million in cash and tournament entries to players on the network.

**The Cage-**This nosebleed cash game in a time based tournament format is the first of its kind. Players may buy-in directly or qualify via satellites for this 5 hour long \$1,050+\$50 buy-in event. The blinds increase each hour of this "Must Play Event". Whatever chips the player has at the end of the 5 hours is converted to cold hard cash!

**Spin to Get IN-**Americas Cardroom is one of the few sites offering re-entry technology for which a player can buy-in again upon elimination to any of its tournaments while the tourney is still in late registration. Players can now also Spin to Get IN. Upon elimination, players can spin a slot machine and get right back into any one of the tournaments for as little as one penny. Thousands of dollars in entries have been won so far!

#### **Software and Graphics**

The Winning Poker Network recently upgraded their software which has given the network and ACR a huge boost. The software is very user friendly and allows for easy multi-tabling options, clean graphics, and smooth gameplay.

The upgrade introduced more tournament varieties, such as hand based and time based tournaments, re-entry tournaments as well as bigger promotion options such as The Beast, Sit & Crush and the Elite Benefits program. The software allows players to easily navigate between tournaments and cash games, and filter their preferred playing size and limit, and game selection.

In early April they introduced a new Tournament User Interface. Players now receive their MTT winnings instantly with their Progressive Payout technology. As soon as the money bubble bursts, players are paid progressively into their account without having to wait until they are eliminated or win the tournament.

**Other improvements include Hand for Hand dealing, Synchronized Breaks, Links in the Chat Box, Internal and External MTT Lobby Improvements, On-Table In-the-Money Symbol, Final Table Graphics, and On-Table Tournament Statistics Display.**

Initial Deposit Bonus: 100% up to \$1000. This is just part of the Welcome Package that includes Access to \$250 New Depositors Freeroll + \$50 Free Tournery Bucks.

**Bonus details:** The 100% First Time Deposit Bonus is paid out in increments of \$1 for every 27.5 [in Benefit Points](#) Earned. Benefit Points previously earned do not count towards the bonus requirement. Players have 60 days to play the First Deposit Bonus through.

**Rakeback Players:** 27% Rakeback. The Rakeback reporting tool is located in the “Rewards” tab within the Poker Lobby. The Rakeback percentage is based on the net rake generated from Monday to Sunday.

**Rake:** Rakeback players are still on contributed rake scheme; however, non Rakeback players receive points based on dealt rake scheme methodology for the Elite Benefits program.

#### **Elite Benefits Program Overview**

ACR's loyalty program is simple. The second players start to play for real money on Americas Cardroom, they will automatically become a part of the program. The ultimate goal is to keep improving their rank in the program. There are five ranks—Lieutenant, Captain, Major, Colonel, and General. To players benefit, ACR uses the dealt rake method to calculate rewards, so earning points and improving ranks is easy.

**Earning Points:** When players play in a cash game with a qualified rake or in a tournament where a fee is paid, they will earn Rank Points (RPs) which determines their rank.

- For every 1.00 USD in tournament fees paid, players receive 5.5 RPs.

For example, if a tournament is played where the Buy-in is \$20+\$2, players will earn 11 RPs for the \$2 USD they are paying as entry fees ( $\$2 \times 5.5 = 11$ )

- In cash games, RPs are given out at a rate of 5.5 RPs for every dollar raked.

For example, at a 9 handed table, with 6 players dealt, and a total of \$2 in rake, 11 RPs are then divided among the six players ( $2 \times 5.5 = 11$ ). That's 1.83 RPs earned per player ( $11/6 = 1.83$ )

Players will also earn Combat Points (CPs) alongside the Rank Points. The number of Combat Points earned each month depends on the rank. A special Player Point multiplier is set for each military rank, the more a person plays – the more they win!

Combat Points are spendable currency at the ACR store. Combat points can be used to purchase cash bonuses, electronics, clothing and even a car!

**Note:** Rakeback players cannot participate in the Elite Benefits program, but are allowed a one-time switch.
