Poker Network: THE WINNING POKER NETWORK (WPN)

Innovation

\$1,000,000 GTD Million Dollar Sundays -Black Chip Poker took the poker industry by storm in 2015 by bringing back \$1,000,000 GTD Million Dollar Sunday tourneys to the US market. And more are on tap for 2016. They are the only US facing network to come close to offering guaranteed prize pools of this size.

Tournament Series-Each year, Black Chip Poker guarantees millions of dollars in prize pools through their exciting Online Super Series, High Five Tournament Series and Freebuy Super Series events. Their next High Five Tournament Series is on deck for this summer; stay tuned for dates yet to be announced.

Jackpot Poker-Black Chip Poker is part of the only US facing network to offer these exciting 3-person hyper turbos Sit & Go's where players can hit it big for a small investment. The tourneys are available in Texas Hold'em and Pot Limit Omaha formats and players can enter for \$2 (play for up to \$5,000), \$10 (play for up to \$25,000) or \$40 (play for up to \$100,000). The prize pool is randomly drawn right before the start of the tournament.

The Beast-This unique weekly rake race awards cash prizes and tournament tickets to cash game grinders every week. This extra incentive is over and above BCP's lucrative VIP program and is of absolutely no cost to the player. A portion of the rake is funneled to a cash leaderboard. The more hands a player plays, the higher they

rank on the leaderboard and the more cash they make at the end of the race. To date, The Beast has awarded over \$6.7 million in cash and tournament entries to players on the network.

The Cage-This nosebleed cash game in a time based tournament format is the first of its kind. Players may buy-in directly or qualify via satellites for this 5 hour long \$1000+\$50 buy-in event. The blinds increase each hour of this "Must Play Event" with blinds from \$5/\$10 up to \$25/\$50. Whatever chips the player has at the end of the 5 hours is converted to cold hard cash!

Punta Cana Poker Classic- Black Chip Poker is proud to sponsor one of the world's best land-based poker tourneys. It's the Punta Cana Poker Classic at the Hard Rock Hotel & Casino in the Dominican Republic this October 2016. The Main Event is \$500,000 GTD and BCP awarded 56 prize packages (\$4,890 value each) last year.

WSOP Main Event Qualifiers-Earlier this year BCP announced an aggressive satellite schedule for packages to the 2015 World Series of Poker Main Event. BCP qualified 50 players for \$12,500 prize packages, with a total of \$625,000 awarded.

Spin to Get IN-Black Chip Poker is one of the few sites offering re-entry technology for which a player can buy-in again upon elimination to any of its tournaments while the tourney is still in late registration. Players can now also Spin to Get IN. Upon elimination, players can spin a slot machine and get right back into any one of the tournaments for as little as one penny. Thousands of dollars in entries have been won so far!

Software and Graphics

The Winning Poker Network recently upgraded their software which has given the network and BCP a huge boost. The software is very user friendly and allows for easy multi-tabling options, clean graphics, and smooth gameplay.

The upgrade introduced more tournament varieties, such as hand based and time based tournaments, re-entry tournaments as well as bigger promotion options such as The Beast, Sit & Crush and the Elite Benefits program. The software allows players to easily navigate between tournaments and cash games, and filter their preferred playing size and limit, and game selection.

Black Chip Poker also has a new Tournament User Interface that includes features such as Hand for Hand Dealing, Synchronized Breaks, Internal and External Lobby Improvements, On-Table Tournament Statistics Display, On-Table In-the-Money Symbol, and Progressive Pay-outs technology.

The Progressive Pay-outs technology is unique to the Winning Poker Network, allowing players to receive their winnings as soon as the money bubble bursts of any multi-table tournament. Players no longer have to wait for elimination or winning the tournament to receive their cash.

Bonus details: The 100% First Time Deposit Bonus is paid out in increments of \$1 for every 27.5 in Benefit Points Earned. Benefit Points previously earned do not count towards the bonus requirement. Players have 60 days to play the First Deposit Bonus through.

Rakeback Players: 27% Rakeback. The Rakeback reporting tool is located in the “Rewards” tab within the Poker Lobby. The Rakeback percentage is based on the net rake generated from Monday to Sunday.

Rake: Rakeback players are still on contributed rake scheme, however, non Rakeback players receive points based on dealt rake scheme methodology for the Elite Benefits program.

Elite Benefits Program Overview

BCP’s loyalty program is simple. The second players start to play for real money on Black Chip Poker, they will automatically become a part of the program. The ultimate goal is to keep improving the level in the program. There are six levels—Player, Rounder, Grinder, Veteran, Legend and Icon. To players benefit, BCP uses the dealt rake method to calculate rewards, so earning points and improving levels is easy.

Earning Points: When players play in a cash game with a qualified rake or in a tournament where a fee is paid, they will earn Benefit Points which determines their level.

- For every 1.00 USD in tournament fees paid, players receive 5.5 BPs.
For example, if a tournament is played where the Buy-in is \$20+\$2, players will earn 11 BPs for the \$2 USD they are paying as entry fees ($\$2 \times 5.5 = 11$)

- In cash games, BPs are given out at a rate of 5.5 BPs for every dollar raked.
For example, at a 9 handed table, with 6 players dealt, and a total of \$2 in rake, 11 BPs are then divided among the six players ($2 \times 5.5 = 11$). That’s 1.83 BPs earned per player ($11/6 = 1.83$)

Players will also earn Player Points (PPs) alongside the Benefit Points. The number of Player Points earned each month depends on the level. A special Player Point multiplier is set for each level, the more a person plays – the more they win!

Player Points are spendable currency at the BCP store. Player points can be used to purchase cash bonuses, electronics, clothing and even a car!

Note: Rakeback players cannot participate in the Elite Benefits program, but are allowed a one-time switch.
